

PRESENTS:
Evolutionary Spirituality
with Barbara Marx Hubbard
September 17-20, 2009

What is Evolutionary Spirituality?

Evolutionary Spirituality is the Inner Big Bang! It is the Impulse of Evolution localized within us as our own passion to co-create and connect. It is rising like a tide of loving creativity in millions of us. It is catalyzed by resonance and communion with one another. It attracts us into our deeper callings and to joining with one another to fulfill our potential in the conscious evolution of our world.

Evolutionary Spirituality is a synthesis of all the great wisdom traditions, with something more and something new. What is new is that we are undergoing the crisis of our birth as a universal humanity. All our myths are either archaic or evolving. We are gaining powers of co-destruction and co-creation we used to attribute to our gods.

Our Generation is living through radical evolution toward newness. In this class we will experience and amplify our own evolutionary spirituality, our callings, and our participation as co-creators in the emerging world. The Eighth Day of Creation: Eve and Yahweh Meeting Again in the Garden will bring forth a new archetype within ourselves. And even more we will call forth the divine process of creation in our midst to evoke the Planetary Birth Experience in our life time!

This Transformative experience will take place at Hummingbird Community, located in the Sangre de Cristo Mountains in northern New Mexico. Hummingbird, founded by a core group within Global Family (www.globalfamily.net), is committed to modeling the principles and practices of co-creation in every aspect of life.
